#### ORDINANCE OF THE CITY AND BOROUGH OF JUNEAU, ALASKA

#### Serial No. 2019-XX

An Ordinance Amending the Land Use Code to Create a Mixed Use 3 (MU3) Zoning District, a Neighborhood Commercial (NC) Zoning District, and the Auke Bay Overlay District.

BE IT ENACTED BY THE ASSEMBLY OF THE CITY AND BOROUGH OF JUNEAU, ALASKA:

Section 1. Classification. This ordinance is of a general and permanent nature and shall

become a part of the City and Borough of Juneau Municipal Code.

Section 2. Amendment of Chapter. Chapter 49.25 Zoning Districts is amended to read:

#### Chapter 49.25 – ZONING DISTRICTS

#### ARTICLE II. ZONING DISTRICTS

#### 49.25.220 Mixed use districts.

(c) The MU3, mixed use 3 district, is intended to place a greater emphasis on the integration of small-scale commercial uses within high-density residential structures. Flexible setback regulations are deliberate to promote cohesive neighborhoods and encourage the development of pedestrian-oriented buildings.

#### 49.25.230 Commercial districts.

(c) The NC, neighborhood commercial district, is intended to encourage the development of lively, mixed-use neighborhoods that are compact and walkable. Greater emphasis is placed upon medium density residential as the primary use with neighborhood-scale commercial activity that is less

intensive than that permitted in the light commercial, general commercial and mixed use zoning districts. Neighborhood Commercial zoning districts are primarily used as a buffer between commercial and mixed use zoning districts and single-family and lower density multi-family residential zoning districts.

2	Notes:
3	1. Minimum lot size is existing lot or area shown on chart in square feet.
4	2. Sixty feet between nonresidential and designated or actual residential site; 80 feet between
5	industrial, extractive and other uses.
6	3. Where one district abuts another the greater of the two setbacks is required for both uses on
7	the common property line.
8	4. (Height Bonus) Reserved.
9	5. (Pedestrian Amenities Bonus) Reserved.
10	6. Zero-foot setback for the portion of the dwelling with a common wall, five-foot setback or
11	five-foot wide easement for the portion of the dwelling at the common lot line without a common wall, and ten-foot setback for the remaining side yards of the lot.
12	
13	7. Zero-foot setback for the portion of the dwelling with a common wall, five-foot setback or five-foot wide easement for the portion of the dwelling at the common lot line without a
14	common wall, and five-foot setback for the remaining side yards of the lot.
15	8. On corner lots, buildings shall be set back 15 feet from a street intersection. The area in
16	which buildings shall be prohibited shall be determined by extending the edge of the traveled ways to a point of intersection, then measuring back 15 feet, then connecting the points.
17	9. Special restrictions apply to construction on bungalow lots. See special use provisions
18	<u>49.65.600</u> .
19	10. For lots adjacent to an alley, the following reductions to the dimensional standards apply:
20	(a) Minimal lot area includes 50% of adjacent alley (see graphic).
21	(b) Minimal lot depth includes 50% of the width of adjacent alley.
22	(c) Minimum front yard setback of ten feet.
23	11. Additional setbacks apply when lot abuts a multi-family or single-family residential
24	
25	zoning district.

### 49.25.430 Yard setbacks.

(6) Maintaining building façade continuity. A new building in the NC or MU3 zoning districts shall have a front yard setback and street side yard setback equal to the average front yard setback of the three closest buildings sharing a frontage and within a 150' radius. An existing building on the subject lot may be used as one of three buildings to calculate the setback determination.

For the purposes of this section, the buildings used in averaging must be conforming enclosed buildings.

(7) Maximum building setback for NC and MU3. At least 50 percent of the length of the ground level, street-facing façade of a new or altered building shall be within the maximum setback for the underlying zoning district. Where there is more than one building on a lot, the maximum standard applies to the combined ground level, street-facing facades of all the buildings.
